

## Secure FTP Instructions

- In your web browser navigate to <https://secureftp.americanbus.com>

- Enter in your username and password and click “Sign In”
- In the bottom bar, select “Add files...” to select files to upload

- Navigate to the directory on your computer where the file(s) is stored, select the file(s) and choose “Open”

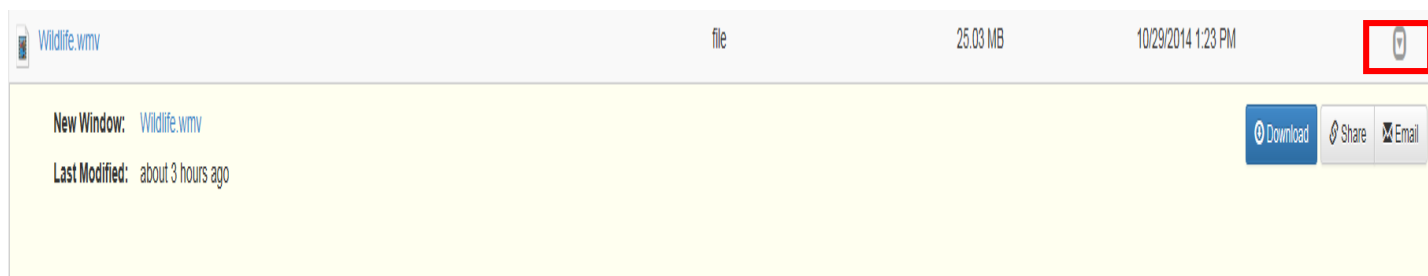

- You will see your file added to the bottom bar, to start the upload click “Start”

- Once the file has uploaded you will see it in the file view

- Click the arrow to the left of the file name to view options for the uploaded file

- To download the file, click the “Download” Button

- To share the file, click the “Share” button

- Fill out the information in the form that pops up and click “Share”
  - File – file name

- b. **Available Until** – date that the file is publically available until. After this date, the link will no longer work. The default “Available Until” value is set to 30 days
- c. **File Link Password** – adding a password will require password entry for anyone the link is sent to. This password will need to be communicated manually

Share the selected file?

⚠ A unique public link will be created to share the selected file. Are you sure?

File:  
background1.jpg

Available Until:  
2014-03-31 00:00

File Link Password:  
Leave blank for no password

Share Cancel

- Once shared, you will receive a public link that you can send to anyone to access the file

Wildlife.wmv

New Window: Wildlife.wmv

Last Modified: about 3 hours ago
